DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-7 are rejected under 35 U.S.C. 102(b or e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Yourker US 3,639,301 or Christell et al. US Re 36,618 or Musch et al. US 6,767,947.
4. The rejections set forth under 35 USC 102 and/or 103 in the paper mailed 7/24/06 are deemed proper and are herein repeated.
5. Applicants remarks filed 1/29/07 have been fully considered but are not persuasive.

Art Unit: 1713

6. Claims 1-7 are drafted as product-by-process. The courts have well established that the patentability of product-by-process claims is defined by the product limitations and not the process described. In the instant case, the product is an aqueous dispersion of a polychloroprene having a gel content of 1-60 wt. %. The initial gel content and heat aging language are not seen to limit the product claimed. As such, applicants arguments with respect to the art not teaching these limitations is considered moot.

7. Further, applicant has failed to show or allege that the art does not poses a gel content that either anticipates or renders obvious that claimed. The examiner maintains that the art shows chloroprene dispersions and these are sufficiently similar so as to describe dispersions having properties that either anticipate or render obvious the claims as drafted.

Election/Restrictions

8. Applicant's election with traverse of group I claims 1-7 in the reply filed on 5/21/07 is acknowledged. The traversal is on the ground(s) that there is no serious burden placed upon the examiner. This is not found persuasive because the claims are patentably distinct for the reasons of record and applicants opinion as to the burden placed upon the examiner does not supercede the reasons of patentable distinctness.

The requirement is still deemed proper and is therefore made FINAL.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
